## Skills

**Frontend** (React.js, Javascript, Typescript, Redux-Toolkit, Nextjs, Angular, CSS3, Bootstrap, Tailwind-Css, MUI)

**Backend** (Nodejs, Express) • **Database** (MongoDb, Prisma, PostgresSQL, Dynamodb) • **CI/CD** (Git, Github)

## Professional Experience

### Software Developer, Banao Technologies

08/2022 – present | Remote

- Played a pivotal role in the development of a salon-focused e-commerce platform, focusing on Redux Toolkit for frontend state management and ensuring backend architecture robustness and scalability.
- Led the design and development of crucial features within a **multitenant architecture application**, emphasizing user management, revenue model implementation, and test-taking functionalities across frontend and backend system.
- Contributed to the redevelopment of the Banao Tech Website by **introducing new component designs, optimizing SEO strategies**, and integrating a headless CMS Strapi for blog management within the Next.js framework.
- **Designed and architected** an internal **Assessment Platform** (Learning Management System) from scratch for intern training purposes.
- Implemented **Serverless architecture with DynamoDB for cost-efficient and scalable operations** in Nodejs project, reducing overhead and enabling seamless auto-scaling.
- Facilitated project development by fostering collaboration with cross-functional teams, while concurrently providing **mentorship to interns and conducting recruitment interviews**. This comprehensive involvement ensured both project success and talent cultivation within the organization.

### Developer Intern, ForeignAdmits

01/2022 – 03/2022 | Remote

- Contributed to the development of a consultancy and services product within an Agile environment, collaborating effectively with cross-functional teams.
- Assisted in the creation of various user interface components, **ensuring adherence to design specifications and usability standards**.
- Participated in **implementing new features and functionalities**, while also contributing to the **optimization of existing features**.
- Worked closely with the team to ensure project alignment and timely delivery, **demonstrating adaptability and problem-solving skills in a dynamic work environment**.

## Projects

### Discord-Clone, App for Social Talk and Hangout ↗

- Developed a real-time chat application using React.js, Material-UI, Context API, and Firebase.
- Configured server setup, channel creation, and facilitated seamless user authentication with Google authentication for streamlined sign-in and sign-out processes.

## Education

**Bachelor of Technology in Electronics and Communication Engineering**, Ajay Kumar Garg Engineering College, Ghaziabad

2016 – 2020 | Ghaziabad, India
